**REVIEW REPORT, FINANCIAL
STATEMENTS AND NOTES TO THE FINANCIAL
STATEMENTS FOR THE ACCOUNTING PERIOD
1 JANUARY – 31 MARCH 2023**

**(CONVENIENCE TRANSLATION OF FINANCIAL STATEMENTS AND RELATED
DISCLOSURES AND NOTES ORIGINALLY ISSUED IN TURKISH)**

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Board of Directors of Golden Global Yatırım Bankası A.Ş.

Introduction

We have reviewed the balance sheet of Golden Global Yatırım Bankası A.Ş. (“the Bank”) at 31 March 2023 and the related statement of income, statement of income and expense items recognized in equity, statement of changes in shareholders’ equity, statement of cash flows and a summary of significant accounting policies and other explanatory notes to the financial statements for the three-month period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial information in accordance with the Banking Regulation and Supervision Agency (“BRSA”) Accounting and Financial Reporting Legislation which includes “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by BRSA and Turkish Accounting Standard 34 “Interim Financial Reporting” for those matters not regulated by the aforementioned regulations. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, “Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Emphasis of Matter

As stated in Note I item e of the explanations and footnotes regarding the asset accounts of the balance sheet, 62% of the total loan amount of TL 543,203, consists of loans extended to two main customer groups. This does not affect our conclusion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial information do not present fairly in all material respects the financial position of Golden Global Yatırım Bankası A.Ş. as of 31 March 2023, and its financial performance and cash flows for the three-month period then ended in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on Other Regulatory Requirements Arising from Legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in section eight, is not consistent with the reviewed financial statements and disclosures in all material respects.

Additional paragraph for convenience translation to English

BRSA Accounting and Reporting Regulations explained in detail in Section 3 differ from International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board with respect to the application of inflation accounting. Accordingly, the accompanying unconsolidated financial statements are not intended to present fairly the financial position, results of operations, changes in equity and cash flows of the Bank in accordance with IFRS.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

SECTION THREE
Accounting Policies

I. Basis of presentation

The financial statements are prepared within the scope of the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no. 26333 dated 1 November 2006 and other regulations related to reporting principles on accounting records of Banks published by Banking Regulation and Supervision Agency (“BRSA”) and circulars and interpretations published by BRSA (together referred as BRSA Accounting and Reporting Legislation) and in case where a specific regulation is not made by BRSA, Turkish Accounting Standards 34 (“TAS 34”) and Turkish Financial Reporting Standards and put into effect by Public Oversight Accounting and Auditing Standards Authority (“POA”).

POA made an announcement on 20 January 2022 regarding the application of TAS 29 “Financial Reporting in Hyperinflationary Economies” (“TAS 29”) for entities adopting Turkish Financial Reporting Standards (“TFRS”) for the year ended 31 December 2021. The announcement stated that, entities that apply TFRS should not adjust their financial statements in accordance with TAS 29 for the year ended 31 December 2021. As of the date of this report, POA has not made any further announcements regarding the scope and application of TAS 29. As a result, no inflation adjustment was made to the accompanying consolidated financial statements as of 31 March 2023 in accordance with TAS 29.

The accounting policies and valuation principles followed in the preparation of the financial statements are explained in the notes below.

II. Explanations on strategy of using financial instruments and foreign currency transactions

The Bank follows an asset-liability management strategy that mitigates risk and increases earnings by balancing the funds borrowed and the investments in various financial assets. The main objective of asset-liability management is to limit the Bank’s exposure to liquidity risk, currency risk and credit risk while increasing profitability and strengthening the Bank’s equity.

Gains and losses arising from foreign currency transactions have been recorded in the period in which the transaction took place. Foreign currency denominated monetary assets and liabilities are valued with the period end valuation rates published converting them into Turkish Lira and valuation differences of foreign currencies have been recognized as foreign exchange profit or loss.

The foreign currency exchange differences resulting from the translation of debt securities issued and monetary financial instruments into Turkish Lira are included in the income statement. There are no foreign currency differences capitalized by the Bank.

III. Explanations on futures, option contracts and derivative instruments

The derivative transactions that the Bank mainly uses are forward, futures, swaps, options and forward purchase and sale contracts. Derivative transactions are classified as financial instruments whose fair value difference is reflected to profit and loss and are monitored with their fair values. Liabilities and receivables arising from derivative transactions are recorded in off-balance sheet accounts at their contractual amounts.

Derivative transactions are evaluated with their fair values in the periods following their recognition. In accordance with the classification of derivative transactions, if the fair value is positive, in the “Part of Derivative Financial Assets at Fair Value through Profit and Loss” or in “Derivative Financial Assets at Fair Value through Other Comprehensive Income”, if negative, “Derivative Financial Liabilities at Fair Value through Profit and Loss” or in “Derivative Financial Liabilities at Fair Value through Other Comprehensive Income”. Differences in the fair value of derivative transactions, of which the fair value difference of derivative financial assets is reflected to profit/loss, are recognized under profit/loss from derivative financial transactions in the trade profit/loss item in the income statement.

There are no embedded derivatives created by separating them from the main contract or derivatives for hedging purposes.

EXPLANATION AND NOTES RELATED TO THE FINANCIAL STATEMENTS
AS OF 31 MARCH 2023

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

Accounting Policies (cont’d)

IV. Explanations on Profit Share Income and Expenses

Profit share income is recognized in the income statement on an accrual basis by using the method of internal rate of return and is accounted under profit share income account in the financial statements. While applying the internal rate of return method, the bank amortizes the fees and transaction costs included in the calculation of the effective profit rate over the expected life of the financial instrument.

V. Explanations on fee and commission income and expenses

Except for the fees and commission income and expenses obtained for some banking services which are recorded as income and expense when collected, fees and commission income/expenses are reflected in the income statement over the period of the related transaction. Fees and commissions, other than those that are integral parts of the effective profit rate in the internal rate of return method of financial instruments measured at amortized cost, are accounted in accordance with TFRS 15 Revenue from Contracts with Customers.

Fees and commission income and expenses, excluding fee revenues, related to some banking transactions, for which revenue is recorded at once during the service period, and loan fees and commission expenses paid to other credit institutions and organizations are recognized on an accrual basis throughout the service period.

In accordance with the provisions of TAS, commission and fees collected in advance for loans granted are deferred and reflected to the income statement by using the internal rate of return method. Unearned portion of the commission and fees relating to the future periods are recorded to the “Unearned Revenues” account under “Other Liabilities” on the balance sheet.

VI. Explanations on financial assets

The Bank classifies and accounts for its financial assets as “Fair Value Through Profit/Loss”, “Fair Value Through Other Comprehensive Income,” or “Amortized Cost” as per the standard of “TFRS 9 Financial Instruments”. This classification is based on the contractual cash flow characteristics of the related business model used for management of the financial assets at initial recognition.

Financial assets are recognized or derecognized according to TFRS 9 Financial Instruments Part 3 Recognition and Derecognition. They are included in the balance sheet of the Bank, if the Bank is a legal party to these instruments.

Financial instruments have the feature of detecting, affecting and diminishing liquidity, credit and profit share risks in the financial statements. All regular way purchases and sales of financial assets are recognized on the settlement date i.e. the date that the asset is delivered to or by the Bank. Settlement date accounting requires (a) accounting of the asset when acquired by the Bank and (b) disposing of the asset out of the balance sheet on the date settled by the Bank; and accounting of gain or loss upon disposal. In case of application of settlement date accounting, for the financial assets at fair value through profit and loss and financial assets at fair value through other comprehensive income the Bank accounts for the changes that occur in the fair value of the asset in the period between trade transaction date and settlement date.

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace. Changes in fair value of assets to be received during the period between the trade date and the settlement date are accounted in the same way as the acquired assets. Fair value differences are not accounted for financial assets presented at cost or amortized cost; gain or loss of financial assets at fair value through profit and loss are reflected in the statement of income; gain or loss of financial assets at fair value through other comprehensive income are accounted for in the other comprehensive income.

Accounting Policies (cont’d)

VI. Explanations on financial assets (cont’d)

Details of the accounts in which financial instruments are classified in financial statements are given below.

Financial Assets at Fair Value Through Profit and Loss

Financial assets at fair value through profit and loss are financial assets other than the ones that are managed with business model that aims to hold assets to collect contractual cash flows or to collect cash flows that are solely payments of principal and profit share on the principal outstanding amount; that are either acquired for generating a profit from short-term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit taking.

The fair value of financial assets at fair value through profit and loss, which are traded in active markets, is determined according to the price of the stock exchange; and if there is no stock exchange price, the price is determined according to the price of the Official Gazette. Where there is no quoted price in an active market, the fair value is determined by using other methods specified in TFRS 13. Financial assets at the fair value through profit or loss are initially recognized at fair value. They are subject to valuation at fair value after recognition. The profit and losses incurred are accounted in the profit and loss.

Financial Assets at Fair Value Through Other Comprehensive Income

Financial assets are classified as fair value through other comprehensive income where the business models aim to hold financial assets in order to collect the contractual cash flows and selling assets and the terms of financial asset give rise to cash flows that are solely payments of principal of profit share at certain dates.

In the initial recognition of financial assets with fair value difference accounted for in other comprehensive income, their fair values including transaction costs are used.

Valuation of the financial assets whose fair value difference is reflected in other comprehensive income after the first registration is made at their fair value. The results of the subsequent changes in the fair value of financial assets at fair value through other comprehensive income, namely unrealized gain or loss are recorded in “Accumulated Other Comprehensive Income/Expense Items to be Reclassified to Profit or Loss”. Accumulated fair value gain or loss, previously reflected in equity, is recorded to the income statement when the said financial assets are disposed.

The fair value of financial assets at fair value through other comprehensive income, which are traded in active markets is determined according to the price of the stock exchange. If there is no price of stock exchange, it is determined according to the Official Gazette. Where there is no quoted price in an active market, the fair value is determined by using other methods specified in TFRS 13.

Financial Assets at Amortised Cost

A financial asset is classified as a financial asset measured at amortized cost, if the financial asset is held within the scope of a business model for the collection of contractual cash flows and the contractual terms of the financial asset result in cash flows that include payments arising only from principal and profit share on the principal amounts on specific dates.

After the initial recognition, provision for impairment to be deducted, if any, financial assets measured at amortized cost are recognized with discounted value using effective profit share method (internal rate of return). Profit share earned from financial assets measured at amortized cost is recorded as profit share income. The Bank classifies financial assets in accordance with the classifications explained above during the acquisition of the mentioned assets.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

Accounting Policies (cont’d)

VI. Explanations on financial assets (cont’d)

Loans

Loans, other than those with intention to be sold, are the financial assets, the contractual terms of which result in cash flows that include payments arising only from principal and profit share on the principal amounts on specific dates.

The Bank initially recognises loans at the cost of the acquisition and accounts for the amortized cost using the effective profit share method (internal rate of return) subsequent periods.

Foreign currency-indexed individual and commercial loans are shown under Turkish Currency (“TL”) accounts after having been converted into Turkish Lira at exchange rate at transaction date. Repayments are calculated at exchange rate at date of payment and exchange rate differences encountered are reflected in profit and loss accounts. Net foreign exchange gains of the foreign currency indexed loans are presented under foreign exchange gain/loss.

All loans of the Bank are monitored under the “Financial Assets at Amortized Costs” account.

VII. Explanations on impairment of financial assets

Expected Loss Provision

The Bank sets aside the expected loss provision by taking into consideration the “Regulation on the Classification of Loans and the Procedures and Principles Regarding the Provisions to be Set Aside” published in the Official Gazette dated 22 June 2016 and numbered 29750.

In addition, the Bank was exempted from the application of TFRS 9 due to the requirement for the credit history to be known in order to determine the expected loss provisions.

Loans

In the event that there are findings indicating that the loans cannot be collected, the Bank will make classification in Group III, IV, and V loans pursuant to the “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves” published in the Official Gazette dated 1 November 2006 and numbered 26333, and specific reserves are provided for these amounts. The Bank can make special provisions for loans with poor financial status and / or that are irrecoverable, above the minimum rates projected in the group to which it belongs.

The collections made in relation to the provisions made for the aforementioned loans in the current period are deducted from the “Provisions for Loans and Other Receivables” account in the income statement, and the principal collections made for the loans that have been provided for or written-off from assets in the previous periods are accounted for in the “Other Operating Income” account.

VIII. Explanations on offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has legally enforceable rights to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

IX. Explanations on sales and repurchase agreements and securities lending transactions

The securities subject to repo are classified in the portfolios of “Financial Assets at Fair Value Through Other Comprehensive Income” or “Financial Assets at Amortized Cost” according to their purposes in the Bank portfolio and are subject to valuation according to the principles of the portfolio they belong to.

Funds obtained in return of repo agreements are monitored in liabilities under “Payable to Money Markets” accounts, and expense rediscount is calculated according to the internal rate of return method for the part of the difference between the sales and repurchase prices determined by the repo agreements.

GOLDEN GLOBAL YATIRIM BANKASI ANONİM ŞİRKETİ
EXPLANATION AND NOTES RELATED TO THE FINANCIAL STATEMENTS
AS OF 31 MARCH 2023

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

Accounting Policies (cont’d)

IX. Explanations on sales and repurchase agreements and securities lending transactions (cont’d)

Reverse repo transactions are recognized under the account “Receivables from Money Markets”. For the part of the difference between the purchase and resale prices determined by reverse repo agreements, corresponding to the period, income rediscount is calculated according to the internal rate of return method.

X. Information on non-current assets “held for sale” and “held from discontinued operations” and explanations on liabilities related with these assets

Assets that meet the criteria to be classified as held for sale are measured at carrying amount and depreciation of such assets is ceased and they are presented separately in the balance sheet. In order to classify an asset as held for sale, the asset (or the disposal group) should be available for an immediate sale in its present condition subject to the terms of any regular sales of such assets (or such disposal groups) and the sale should be highly probable. For a highly probable sale, the appropriate level of management must be committed to a plan to sell the asset (or the disposal group), and an active program to complete the plan should be initiated to locate a customer. Also, the asset (or the disposal group) should have an active market sale value, which is a reasonable value in relation to its current fair value. Events or circumstances may extend the completion of the sale more than one year.

Such assets are still classified as held for sale if there is sufficient evidence that the delay in the sale process is due to the events and circumstances occurred beyond the control of the entity or the entity remains committed to its plan to sell the asset (or disposal group).

A discontinued operation is a component of a bank that either has been disposed of, or is classified as held for sale. Gains or losses relating to discontinued operations are presented separately in the statement of profit or loss.

XI. Explanations on goodwill and other intangible assets

As at the balance sheet date, there is no goodwill recorded in the financial statements of the Bank.

Intangible assets are carried at their restated historical costs and intangible assets that are purchased in the subsequent periods are carried at their historical cost, less any accumulated amortization and any impairment losses. Intangible assets are amortized by using the straight line method based on their useful lives. Amortization method and period are assessed periodically at the end of each year. Intangible assets consist of software expenses and they are amortized by using the straight line method over 3 years. There is no significant change in the accounting estimates expected or to be expected having a significant effect on the amortization method, amortization period or residual value.

XII. Explanations on tangible assets

Tangible assets are measured at its cost when initially recognised and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement. Tangible assets are presented in the financial statements over their remaining cost after deducting accumulated depreciation from cost amounts, if any, and after deducting accumulated depreciation from their fair values. Tangible assets are depreciated over their estimated useful lives using the straight-line method. Lands are not depreciated due to their unlimited lifetime.

The estimated useful lives are as follows:

Buildings	50 years
Transfer Vehicles	5 years
Other tangible assets	3-36 years

As of the balance sheet date, the depreciation amount is calculated by proportioning the depreciation amount estimated for one full year with the duration of being in the assets. If the cost value is higher than the “Net realizable value” of the related tangible asset, the value of the aforementioned asset is reduced to the “Net realizable value” and the provision for the impairment allocated is associated with the expense accounts. Gains and losses arising from the disposal of tangible assets are determined by deducting the net book value of the related tangible asset from the sales revenue.

GOLDEN GLOBAL YATIRIM BANKASI ANONİM ŞİRKETİ
EXPLANATION AND NOTES RELATED TO THE FINANCIAL STATEMENTS
AS OF 31 MARCH 2023

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

Accounting Policies (cont’d)

XII. Explanations on tangible assets (cont’d)

Ordinary maintenance and repair expenses incurred for tangible assets items are recognized as expenses. Investment expenditures that increase the future benefit by enhancing the capacity of tangible assets are capitalized. The investment expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the product or to decrease the costs.

There are no mortgages, pledges or similar precautionary measures on tangible assets or commitments given for the purchase as of 31 March 2023 and 31 December 2022.

XIII. Explanations on leasing transactions

The Bank assesses whether a contract is or contains a lease, at inception of the contract. The Bank recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. If there is no other systematic basis that better reflects the timing structure in which the economic benefits obtained from the leased assets are used, the Bank accounts for the lease payments as operating expenses by linear method during the lease period.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Bank uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease,

The lease liability is presented as a separate line in the statement of financial position. The lease liability is subsequently measured by increasing the carrying amount to reflect profit share on the lease liability (using the effective profit share (internal rate of return) method) and by reducing the carrying amount to reflect the lease payments made.

The Bank remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate,
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating profit share rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Bank did not make any such adjustments during the periods presented.

GOLDEN GLOBAL YATIRIM BANKASI ANONİM ŞİRKETİ
EXPLANATION AND NOTES RELATED TO THE FINANCIAL STATEMENTS
AS OF 31 MARCH 2023

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

Accounting Policies (cont’d)

XIII. Explanations on leasing transactions (cont’d)

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Bank incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under TAS 37.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The Bank applies TAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the “Property, Plant and Equipment” policy.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and included in “Other expenses” in profit or loss.

XIV. Explanations on provisions and contingent liabilities

Provisions and contingent liabilities are accounted in accordance with “Turkish Accounting Standard on Provisions, Contingent Liabilities and Contingent Assets Corresponding” (“TAS 37”).

Provisions are recognized when the Bank has a present obligation, legal or constructive, as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate can be made of the amount of the obligation. As per the “Matching Principle,” a provision is provided for the liabilities arising as a result of past events in the period they arise, if it is probable that the liability will be settled and a reliable estimate for the liability amount can be made. When a reliable estimate of the amount of the obligation cannot be made or it is not probable that an outflow of resources will be required to settle the obligation, the obligation is considered as a “Contingent” liability and is disclosed in the related notes to the financial statements.

XV. Explanations on obligations related to employee benefits

The Bank recognizes its liabilities of employment terminations and vacation benefits in accordance with “Turkish Accounting Standard about Benefits for Employee” (“TAS 19”).

TAS 19, which is updated with the Communiqué published in Official Gazette by Public Oversight Accounting and Auditing Standards Authority on 12 March 2013 numbered 28585, abolished the option of associating related loss and profit with the “Income Statement” of the relevant period in the accounting treatment of actuarial profit and loss resulting from changes in actuarial assumptions or differences between actual and actuarial assumptions for the Bank’s retirement pay liability calculations. Actuarial profit and loss in the relevant reporting period was classified in “Other Reserves” under Shareholders’ Equity, as being associated with the Statement Related to Income and Expense Items Recognized in Equity. It is associated with the Related Table and accounted under the “Other Reserves” item under Equity.

In accordance with existing social legislation in Turkey, the Bank is required to make lump-sum termination indemnities for each employee whose employment is terminated due to retirement or for reasons other than resignation or misconduct. The Bank has calculated the estimated value of the probable future liability amounts arising from making severance pay to each employee who has completed over one year of service with the Bank and who retires or quits the employment to fulfill the compulsory military service, or who passes away, as defined in the Turkish Labor Law, based on their net present values and recognized in the financial statements.

GOLDEN GLOBAL YATIRIM BANKASI ANONİM ŞİRKETİ
EXPLANATION AND NOTES RELATED TO THE FINANCIAL STATEMENTS
AS OF 31 MARCH 2023

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

Accounting Policies (cont’d)

XV. Explanations on obligations related to employee benefits (cont’d)

The Bank’s employees are not members of any pension fund, foundations, union or other similar entities.

As of 31 March 2023, the Bank does not have employees who are employed with a fixed-term contract, whose contract term will expire in a period more than 12 months from the balance sheet date.

XVI. Explanation on taxation

Current Tax:

As per the terms of the provisional article 13 added to the Law No. 5520 with the Law No. 7316, it was established that the rate of 20%, shall be applied as 25% over the corporation income for the tax periods of the years 2021, and 23% for the year 2022. On the other hand, as per the terms of the amendment made in Article 32 of the Corporate Tax Law with the Law No. 7394 published in the Official Gazette dated 15 April 2022 and numbered 31810, corporate tax rate has been determined as 25%, starting from the declarations to be submitted as of 1 July 2022 and valid for the corporate earnings for the taxation period starting from 1 January 2022.

The corporate tax rate will be applied as 25% for the years 2022. This rate is applied on taxable income which is calculated by adjusting the income before tax for certain disallowable expenses, tax exempt income and other allowances. No further tax is applicable unless the profit is distributed. According to the tax legislations, advance tax amount shall also be calculated using a rate of 25%, over tax base and shall be paid, then the advance taxes paid within the year shall be offset from the corporate tax calculated over the yearly corporate tax return for that year.

With the aforementioned amendment to the law, entities calculate temporary tax at a rate of 25% over the quarterly financial income for the year and advance tax returns are filed by the fourteenth day of the second month following the related period and taxes are paid by the seventeenth day. Advance taxes are paid within the year belong to that year, and the paid advance taxes are offset from the corporate tax liability calculated over the corporate tax returns in the subsequent year. Any remaining amount of paid advance taxes after the offset can be paid back in cash or it can be deducted from financial loans to the government.

Corporate tax returns are filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes is paid in one installment by the end of that month.

Corporate tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred. However, losses cannot be carried back to offset profits from previous periods. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

Deferred Tax:

For taxable temporary differences arising between the tax bases of assets and liabilities and their carrying amounts, as per the provisions of “Turkish Accounting Standard on Income Taxes” (“TAS 12”), the Bank calculates deferred tax liability over all taxable temporary differences and deferred tax asset over taxable temporary differences to the extent that is probable that taxable profit will be available in subsequent periods. Deferred tax asset and liabilities are shown in the accompanying financial statements on a net basis. The tax effects of items accounted for directly in equity are also reflected in equity.

Deferred tax assets and liabilities are calculated over the tax rates expected to be applied in the period when the tax asset will be realized or the liability will be fulfilled by taking into account the tax rates and tax legislation that are in effect or effective as of the balance sheet date. The rates applied for deferred tax assets and liabilities calculated over temporary differences that will occur in the future are classified as 25% on an item basis, according to the expected realization periods of tax assets and liabilities in accordance with the relevant legislation (2022: 25%).

EXPLANATION AND NOTES RELATED TO THE FINANCIAL STATEMENTS
AS OF 31 MARCH 2023

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

Accounting Policies (cont’d)

XVII. Additional explanations on borrowings

Borrowings other than funds collected are measured at amortized cost using the internal rate of return method after the initial recognition. The Bank does not apply hedging techniques on related borrowings.

The Bank has not issued convertible bonds.

XVIII. Explanations on issuance of share certificates:

There are no share certificates issued by the Bank.

There is no dividend distribution decision of the Bank announced after the balance sheet date.

XIX. Explanations on availed drafts and acceptances

Acceptances and availed drafts are realized simultaneously with the payment dates of the customers and they are presented as probable payables and commitments in off-balance sheet accounts.

XX. Explanations on government grants

There are no government incentives utilized by the Bank as of 31 March 2023.

XXI. Profit reserves and distribution of profit

The accumulated profit of the Bank are available for distribution, provided that permission is obtained from the BRSA.

XXII. Related parties

In line with the purpose of these financial statements, shareholders, senior executives and members of the board of directors, their families and companies controlled by them or affiliated with them, associates and joint ventures are classified as related parties within the scope of the “Related Party Disclosures Standard” (“TAS 24”). Transactions made with related parties are presented in Section Five, note V.

XXIII. Explanations on investments in associates, subsidiaries and joint ventures

In the unconsolidated financial statements, associates, joint ventures financial and non-financial subsidiaries are accounted at cost, after deducting provisions for impairment, if any, within the scope of TAS 27.

XXIV. Cash and cash equivalents

“Cash”, which is the basis for the preparation of cash flow statements, is defined as effective money in transit and purchased bank checks and demand deposits in banks including the R.T. Central Bank (“CBRT”), and “Cash equivalent asset” is defined as interbank money market placements with an original maturity of less than three months and time deposits in banks.

XXV. Explanations on segment reporting

Operating segment is the distinguishable part of the Bank that the Bank operates in the provision of a single product or service or a related product or service group and that has different characteristics from other fields of activity in terms of risk and return. The information of the Bank’s business segments is explained in Section Four, disclosure numbered XIV.

XXVI. Explanations on other matters

As of 31 March 2022, the Bank reclassified the effective foreign currency trading profits amounting to TL 18,865, which was classified as “other” under net fee and commission income in the income statement, as “profit/loss from foreign exchange transactions” under commercial profit/loss.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

SECTION FOUR
Explanations Related to the Financial Position and Risk Management

I. Explanations on the components of shareholders’ equity

Shareholders' equity and capital adequacy ratio were calculated within the framework of “Regulation on Banks' Equity” and “Regulation on Measurement and Evaluation of Capital Adequacy of Banks”.

As of 31 March 2023, the Bank’s total shareholders’ equity is calculated as TL 473,646, capital adequacy ratio is 20.07%. This ratio is well above the minimum ratio required by the legislation. (The shareholders’ equity amount as at 31 December 2022 is TL 346,176 and the capital adequacy ratio is 39.66%.)

	31 March 2023	31 December 2022
COMMON EQUITY TIER 1 CAPITAL		
Paid-in capital following all debts in terms of claim in liquidation of the Bank	150,000	150,000
Share issue premiums	-	-
Reserves	1,405	1,405
Gains recognized in equity as per Turkish Accounting Standards (TAS)	239	-
Profit	351,636	214,508
Current Period Profit	137,128	192,404
Prior Periods’ Profit	214,508	22,104
Shares acquired free of charge from associates, subsidiaries and joint ventures and cannot be recognized within profit for the period	-	-
Common Equity Tier 1 Capital Before Deductions	503,280	365,913
Deductions from Common Equity Tier 1 Capital	(40,528)	(26,768)
Common Equity as per the (i) clause of Provisional Article 9 of the Regulation on the Equity of Banks	-	-
Portion of the current and prior periods’ losses which cannot be covered through reserves and losses reflected in equity in accordance with TAS	-	-
Improvement costs for operating leasing	-	-
Goodwill remaining after offsetting with the relevant deferred tax liability	-	-
Other intangible assets remaining after offsetting with the related deferred tax liability, excluding the rights to provide mortgage service	(40,528)	(26,768)
The remaining part of the deferred tax asset based on taxable income to be obtained in future periods, excluding the deferred tax assets based on temporary differences, after deducting with the related deferred tax liability	-	-
Differences are not recognized at the fair value of assets and liabilities subject to hedge of cash flow risk	-	-
Communiqué Related to Principles of the amount credit risk calculated with the Internal Ratings Based Approach, total expected loss amount exceeds the total provision	-	-
Gains arising from securitization transactions	-	-
Unrealized gains and losses due to changes in own credit risk on fair valued liabilities	-	-

GOLDEN GLOBAL YATIRIM BANKASI ANONİM ŞİRKETİ
EXPLANATION AND NOTES RELATED TO THE FINANCIAL STATEMENTS
AS OF 31 MARCH 2023

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

Explanations Related to the Financial Position and Risk Management (cont’d)

I. Explanations on the components of shareholders’ equity (cont’d)

a) Information on debt instruments to be included in equity calculation

None.

b) Necessary explanations in order to reach an agreement between the statement of shareholders equity and balance-sheet amounts

The main difference between the “Equity” amount given in the statement of equity and the “Equity” amount in the unconsolidated balance sheet arises from the general provisions. The portion of general provisions of the amount subject to credit risk is considered as Additional Tier I Capital in the calculation of the “Equity” amount given in the statement of equity. Operating lease development costs, intangible assets and deferred tax liabilities associated with them, which are under the item of Tangible Assets in the balance sheet, are taken into account in the calculation as Value to be Deducted from the Capital in the calculation of the “Equity” amount.

II. Explanation on credit risk

Not prepared in accordance with the Article 25 of the Communiqué on Financial Statements and Related Disclosures and Notes to be Announced to Public by Banks.

III. Explanation on currency risk

Foreign exchange risk refers to the probability of loss that banks may be exposed to due to changes in foreign exchange rates.

- The Bank considers exchange rate risk as a sub-component of market risk and keeps the exchange rate risk in balance by paying attention not to create a deficit or surplus position. Exchange rate risk is monitored on a daily basis and the Foreign Currency Net General Position / Equity Ratio is calculated and monitored on a daily basis. All foreign currency assets, liabilities and forward foreign currency transactions of the Bank are taken into consideration when calculating the capital requirement for foreign currency risk, and the standard method is used in legal reports.
- The Bank has no derivative financial instruments for hedging purposes.
- The Bank's foreign currency position is always kept in balance against the uncertainties and fluctuations in the markets and therefore, it is foreseen not to carry foreign exchange risk. The Bank takes necessary measures to minimise foreign exchange risk.

The Bank's financial statement date and current foreign exchange buying rates announced to the public in the last five working days backwards from this date:

	<u>Euro</u>	<u>US Dollar</u>
Exchange Buying Rate at 31/12/2022	TL 19.9349	TL 18.6983
Exchange Buying Rate at 31/03/2023	TL 20.8021	TL 19.1460
1st Day CBT Exchange Buying Rate	TL 20.8021	TL 19.1460
2nd Day CBT Exchange Buying Rate	TL 20.7201	TL 19.1070
3rd Day CBT Exchange Buying Rate	TL 20.6467	TL 19.0839
4th Day CBT Exchange Buying Rate	TL 20.5252	TL 19.0680
5th Day CBT Exchange Buying Rate	TL 20.5055	TL 19.0371

The simple arithmetic average value of the Bank's current foreign exchange buying rate for the last thirty-one days backwards from the financial statement date:

	<u>Euro</u>	<u>US Dollar</u>
31/12/2022 Arithmetic average - 31 days	TL 19.7164	TL 18.6370
31/03/2023 Arithmetic average - 31 days	TL 20.2649	TL 18.9651

GOLDEN GLOBAL YATIRIM BANKASI ANONİM ŞİRKETİ
EXPLANATION AND NOTES RELATED TO THE FINANCIAL STATEMENTS
AS OF 31 MARCH 2023

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

Explanations Related to the Financial Position and Risk Management (cont’d)

IV. Explanations on share position risk

There is no position risk of equity instruments arising from banking accounts. (31 December 2022: None).

V. Explanations on the liquidity risk management and liquidity coverage ratio

The liquidity risk of the Bank is the risk of being unable to fulfill its payment obligations on time due to not having enough cash sources or cash inflows to finance its cash outflows fully and on time due to cash flow instabilities. Liquidity risk may also occur when the market penetration is not adequate, when the open positions cannot be closed quickly at suitable prices and sufficient amounts due to barriers and break-ups at the markets.

In order to avoid liquidity risk, the Bank covers the placements made to domestic banks with loans from foreign countries, the maturity match is observed between assets and liabilities, and liquid assets are preserved in order to fully meet the liquidity needs that may arise as a result of market fluctuations.

Liquidity risk is managed by the Asset Liability Committee (ALCO) within the framework of risk management policies and appetite approved by the Board of Directors. The Board of Directors regularly reviews the strategies, policies and practices regarding liquidity risk management. It approves liquidity risk strategies and policies within the framework of risk management strategies and policies, and ensures that these strategies, processes and policies are effectively implemented and fully incorporated into the Bank's risk management system. It determines the basic criteria to be taken into account in the measurement and monitoring of liquidity risk.

In liquidity risk management, liquidity risk limits that can be taken in line with the Bank's risk appetite are determined, the limits are regularly reviewed by the Risk Management Unit and reported to the Assets and Liabilities Committee.

In line with ALCO decisions, business plans are reviewed by business units according to the Bank's liquidity situation and necessary actions are taken.

In new fund disbursements, information is requested from the Risk Management Unit regarding the suitability of liquidity ratios, and transactions are carried out by taking into account the Bank's liquidity ratios and cash flows. In line with its risk appetite, the Bank continuously reviews its funding sources and their durations and endeavours to diversify its funding sources.

Necessary stress test scenarios are applied over liquidity ratios against extraordinary situations. These studies carried out by the Risk Management Unit are regularly reported to the Assets and Liabilities Committee and the Audit Committee.

Gross notional amounts of off-balance sheet transactions	-	-
Adjustments for conversion to credit equivalent amounts	-	-
Total risks of off-balance sheet items	340,977	218,590
Capital and total risks	-	-
Tier 1 capital	426,828	319,337
Total risks	3,215,088	2,675,932
Leverage ratio	13.28	11.93

(*) Leverage Ratio is calculated with the average balance at the end of January, February and March 2023 in the notification table.

(**) The information in the Leverage Ratio Notification Table is calculated with the average of the month-end balance of October, November and December 2022.

VI. Explanations on Risk Management

Notes and explanations prepared in accordance with “the Communiqué on Disclosures about Risk Management to Be Announced to Public by Banks” published in Official Gazette no. 29511 on 23 October 2015 by BRSA and became effective as of 31 March 2017 are presented in this section. The following tables, which should be given in three-months periods in accordance with the relevant communiqué, are not presented as of 31 March 2023, as the standard approach is used in the capital adequacy calculation of the Bank:

RWA flow statements of credit risk exposures under IRB (Internal Rating-Based) approach

RWA flow statement of CCR exposures under Internal Model Method (IMM)

RWA flow statements of market risk exposures under an IMA

SECTION FIVE
Explanations and Notes Related to Financial Statements

I. Explanations and notes related to financial statements

a) Information on Cash and balance with the Central Bank of Turkey:

1. Information on Cash and balance with the Central Bank of Turkey:

	31 March 2023		31 December 2022	
	TL	FC	TL	FC
Cash/Effective	19,414	64,276	21,631	254,712
Central Bank of Turkey	86,322	118,199	29,362	29,342
Other	-	6,058	-	5,455
Total	105,736	188,533	50,993	289,509

2. Information on the Central Bank of Turkey:

	31 March 2023		31 December 2022	
	TL	FC	TL	FC
Unrestricted Demand Deposit	86,322	146	29,362	143
Unrestricted Time Deposit	-	-	-	-
Restricted Time Deposit	-	-	-	-
Required Provision Account	-	118,053	-	29,199
Total	86,322	118,199	29,362	29,342

3. Explanation on Required Provisions:

Banks established in Turkey or operating in Turkey by means of opening branches are subject to the Republic of Turkey Central Bank's Communiqué Regarding Required Provisions No. 2015/19. Except for the obligations to the Central Bank, the Treasury, domestic banks and the headquarters and branches of the banks in Turkey established by international agreement, based on the accounting standards and recording order that banks and companies are subject to, the items specified in the communiqué constitute the obligations subject to reserve requirements.

According to the "Communiqué Regarding Required Provisions No. 2013/15" of the Central Bank of Turkey, banks in Turkey maintain required reserves at the Central Bank of Turkey for Turkish lira (TL) and foreign currency (FC) liabilities. Required provisions can be kept in Turkish Lira, USD, EUR and standard gold. The valid rates for Turkish lira required reserves are between 3% and 8% depending on the maturity structure; the valid rates for foreign currency required reserves are between 5% and 26% depending on the maturity structure. With the "Communiqué on the Establishment of Securities" numbered 2022/23, the assets and liabilities subject to the establishment of securities have been determined. They establish securities at 3% for liabilities and 30% for assets.

b) Information on financial assets at fair value through profit/loss:

1) Information on financial assets at fair value through profit and loss given as collateral or blocked:

None. (31 December 2022: None)

2) Financial assets at fair value through profit/loss and subject to repurchase agreements:

e) Information on borrowings from lease transactions:

	31 March 2023		31 December 2022	
	Gross	Net	Gross	Net
Less than 1 Year	-	-	35	34
1-4 Years	23,884	12,557	4,675	3,329
More than 4 Years	-	-	7,316	4,442
Total(*)	23,884	12,557	12,026	7,805

(*) Payables from lease transactions 'Gross Amount' The amount to be paid in the payment schedules created for TFRS 16 is classified according to the remaining maturity. The 'Net Amount' is classified according to the remaining maturity by taking the difference between the amount to be paid and the interest.

GOLDEN GLOBAL YATIRIM BANKASI ANONİM ŞİRKETİ
EXPLANATION AND NOTES RELATED TO THE FINANCIAL STATEMENTS
AS OF 31 MARCH 2023

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”))

Explanations and notes related to Financial Statements (cont’d)

II. Explanations and notes related to the liabilities (cont’d)

f) Information on hedge derivative financial liabilities:

None. (31 December 2022: None)

g) Explanations on provisions:

1) General loan provisions are explained:

TL 7,908 consists of provisions for cash loans, TL 449 for non-cash loans and TL 2,537 for derivative transactions. (31 December 2022: TL 6,426 consists of cash loans, TL 428 for non-cash loans and TL 177 for derivative transactions).

2) Foreign exchange provisions for foreign currency indexed loans are explained:

As of 31 March 2023, there are no foreign currency indexed loans and foreign currency reserves. (31 December 2022: None)

3) Specific provisions for non-cash loans that are not indemnified and converted into cash or expected loss provisions for non-cash loans:

There are no specific provisions for non-cash loans that have not been issued and converted into cash. (31 December 2022: None)

4) Liabilities regarding provision for employee benefits:

According to the Turkish Labor Law, the Bank has to pay employment termination benefit for its personnel who completed one year and has been dismissed or retired due to compulsory reasons, completed 25 years of service (20 for women) and earned the right to retirement (age 58 for women, 60 for men), recruited or deceased. After the legislative change on 23 May 2002, some transition period articles regarding the employment termination benefit period before retirement were removed.

Employment termination benefits to be paid is up to one month's salary for each year of service and this amount is limited to TL 19,982.83 (full TL amount) for 31 March 2023. The employment termination benefit is not legally subject to any funding and there is no funding requirement.

TAS 19, “Turkish Accounting Standard for Employee Benefits”; requires actuarial valuation methods to be used to calculate liabilities of entities. Therefore, in the calculation of the Bank's probable liability, the interest rate is calculated using the 17.48% inflation rate, 21% interest rate and 3% discount rate assumptions.

The provision for employment termination benefit and unused vacation rights for the employees of the Bank is presented below.

	31 March 2023	31 December 2022
Provision for Vacation	549	488
Provision for Notice Pay	-	-
Provision for Severance Pay	343	662
Total	892	1,150
